Interior Decoration and Fine Arts –
over generations and cultures

Images touching your heart

- contemporary lifestyle photography -

Desert Rose Photography aim to create images which touches your heart.

In most countries people want to decorate their home in a beautiful way so they feel at home and at ease with their environment. The same is also true for most workplaces where we also spend a lot of time of our daily life. It is important to feel welcomed and part of this is seeing beautiful images which creates different moods that are suitable for you.

-over generations and countries –

Desert Rose Photography knows we do have different things we like in life depending on where we come from, how old we are, which stage in life we are etc but most of us want to feel welcome at home and at our workplaces and here images can add some of that extra feeling.
